

# Childhood cancer

For so many families, including many of us at Roshan Mahanama Trust - the battle against cancer is a true agony. When a person you love is diagnosed with cancer, it throws your world off its axis. That fear and heartache is only multiplied when cancer strikes a child.

In Sri Lanka,  
every year 750 children  
are newly diagnosed  
with cancer.

Every day, 100 children  
are seen in the out patient  
clinics at  
Apeksha Hospital  
Maharagama.

There are over  
150 children warded at  
Apeksha Hospital  
Maharagama.

The only hospital that treats Childhood Cancer  
in Sri Lanka is the Apeksha Hospital  
in Maharagama.

ROSHAN  
MAHANAMA  
TRUST

Humanity Beyond Boundaries

"Roshan Mahanama Trust has identified Childhood Cancer as a priority. 'We Promise' to honour the commitment we have made to service our community, and a promise to continue building our society on a foundation of compassion, a sense of duty, responsibility and consistency."
